Dear Ioan,

BIO TURBO 6000

Just a short note to thank you and Shaun for the 'value add' to our Europort cold rooms this past season.

With 2 x Bio Turbo 6000s installed we have seen a significant reduction in waste off of our cold room floor; air quality is significantly improved – with the presence of ethylene clearly much reduced.

We have also noted a reduction in claim rates for both ethylene based and bacteria driven deterioration from end market unpackers.

We are very impressed!

Best regards

ANDREW PATTENDEN
